

## ToutVirtual Offers Free Download of VirtualIQ Pro 3

*Fully-featured, free version supports up to 5 CPU sockets or 25 virtual machines for server virtualization assessment, asset management, performance management, capacity management, and reporting*

Carlsbad, California – January 13, 2009 – ToutVirtual, an emerging leader in virtualization intelligence, optimization and performance-management software for virtual computing infrastructures, today announced the availability of a free version of its VirtualIQ Pro 3 (VirtualIQ Pro) product. The integrated functionality of VirtualIQ Pro provides server virtualization assessment, asset management, performance management, capacity management, and reporting in one product that is simple to install, deploy and use. VirtualIQ Pro offers a unique value proposition since the same console is capable of supporting Citrix, Microsoft, Oracle, VMware, and open-source Xen virtualization platforms. As a quick-start, ToutVirtual is offering a fully-featured, free version of VirtualIQ Pro which supports up to 5 CPU sockets or 25 virtual machines. ### **About ToutVirtual**

ToutVirtual, Inc. is an emerging leader in virtualization intelligence and system optimization software to manage and automate virtual computing processes and ease the transition from design to deployment. VirtualIQ, the company's flagship product suite, allows organizations to obtain a holistic view and control their virtual infrastructure including servers, applications, storage, and clients independently of the underlying virtual computing platform. Unlike other companies whose products are vendor specific, platform specific, or network tier specific, ToutVirtual software operates across multiple platforms and is multi-tier to prolong product life, protect IT investments, and maximize ROI. Additional information about the company and its products is available at <http://www.toutvirtual.com>
